

Mimic

Universal A/C Remote Control

SPECIAL FEATURES

Compatible with most major air conditioner brands

Up to 4 unit codes can be stored: control 4 units at a time without reprogramming

1, 5 and 7 day programmable timer for more economical AC operation

On screen ambient temperature

The mimic® Universal remote control for air conditioning units has been designed specifically with you, the user, in mind.

In addition to control standard air conditioning functions like mode, temperature, fan speed and louvers, this next-generation remote also includes a 1, 5 and 7-day programmable timer. Set the remote to make your AC unit switch on and off automatically to suit your needs. This feature will even work on older AC units with no built-in timer function.

The mimic® is also able to store up to four unit codes at a time - perfect for buildings with varying makes of air conditioning unit.

The mimic® universal remote control is compatible with units from all major air conditioning manufacturers. The most popular codes are listed below. An auto search function is also available, should your unit not be included in the list.
